

UTC Project Information	
Project Title	MPC-370 – Anticipatory Guidance for Older Drivers
University	North Dakota State University
Principal Investigator	Andrea Huseth
PI Contact Information	Associate Research Fellow North Dakota State University Phone: (701) 231-6427 Email: andrea.huseth-zosel@ndsu.edu
Funding Agencies	USDOT, Research and Innovative Technology Administration
Agency ID or Contract Number	DTRT12-G-UTC08
Project Cost	\$54,202
Start and End Dates	January 1, 2012 – December 31, 2013
Project Duration	2 Years
Brief Description of Research Project	The goal of this project is to identify HCP attitudes, perceptions, and barriers to providing anticipatory guidance regarding driving-related issues, including but not limited to driving cessation, to older drivers. In addition, researchers would like to determine the frequency of HCP counseling regarding safe driving habits being provided to patients starting at age 55 to determine if drivers who receive anticipatory guidance at a younger age are less likely to be involved in motor vehicle crashes and are more confident drivers.
Describe Implementation of Research Outcomes (or why not implemented)
